

Below you will find a list of the voted categories and the nominees for each category. We suggest reading over this list before logging in to Award Force to cast your vote. You can find more information on each nomination in Award Force.

Votes are weighted as follows:

1st place = 7 points

2nd place = 3 points

3rd place = 1 point

We are using *Award Force* as our voting platform and given the way the software is configured, we suggest placing all of your 1st place votes first, followed by your 2nd place and 3rd place for each category.

NB: The software will not prevent you from accidentally voting for someone in first and second place so please be mindful of this.

How to Vote:

1. Cast your 1st vote by navigating to 'Voting' and 'Vote for 1st Place'
2. View nominations by toggling between tabs across the top of the screen
3. View nomination information for brands/retailers in each category
4. Click vote
5. Repeat the above steps to cast your votes for 2nd and 3rd place for each category
